Acknowledgement and Authorization for Health Care

This health history is correct and accurately reflects the health status of the camper to whom it pertains. The person described has permission to participate in all camp activities except as noted. I understand that first aid supplies and equipment, including an AED, are available on-site at camp. I give permission to the camp healthcare provider(s) to provide routine health care, including administering medications. The camp generally does not contact parents/guardians or emergency contacts if campers are seen by the camp healthcare provider for routine problems (e.g., skinned knees, sore throat, headache) that do not require a physician referral. This includes overnight stays in the health center. The decision to consult parents/guardians or emergency contacts in these situations is determined on a case-by-case basis by our healthcare provider. I understand I must attach a letter to this form if I want the camp to follow a practice different from what is described. In case of an emergency, the camp healthcare provider will make every effort to contact parents/guardians or emergency contacts by phone, using the numbers provided on this form, if the camper listed has need for out-of-camp healthcare, but the camp cannot promise that it will be successful in reaching these persons. If these persons cannot be reached in an emergency, I give permission to the physician selected by the camp to hospitalize, secure proper treatment for, and order injection, anesthesia, or surgery for this camper. I give permission to the physician selected by the camp to order x-rays, routine tests, and treatment related to the health of me or my child for both routine health care and emergency situations. I give permission to the camp to arrange necessary related transportation for me or my child. I understand the information on this form will be shared on a "need to know" basis with camp staff. I give permission to photocopy this form. In addition, the camp has permission to obtain a copy of me or my child's health record from providers who treat me or my child and these providers may talk with the camp staff about my or my child's health status.
